I, Frank Walker, being first duly sworn, depose and say that this Map has been correctly drawn to the designated scale from field notes of a survey made by me between the 21 day of April and the 5 day of May 1941; that it truly and correctly represents the location and extent of the works used to divert water from Flood Waters from Delamar-flat Hardpan, in Lincoln County, by James Ryan and John H. Conaway for Stockwatering purposes. That the point of diversion, the location and size of the reservoir, the place and manner of use, and the location and names of all ditches, works or streams which are crossed by, or connected with said works, are fully and correctly designated thereon.
