

State of Nevada  
 County of Ormsby

I, Wayne M. Leod being first duly sworn depose and say that this map consisting of one sheet has been correctly drawn to the desired scale from field notes of a survey made by me on the 24th day of May 1942; that it truly and correctly represents the location and extent of the completed works used to divert water from a well (underground source) in Clark County, by Roy Cram, for mining, milling and domestic purposes. That the point of diversion and return, the location of the mill, the size and capacity of the diverting flume, and the location and names of all other works or streams which are crossed by or connected with said works are fully and correctly designated hereon.

Wayne M. Leod  
 State Water Right Surveyor

Subscribed and sworn to before me this 2<sup>nd</sup> day of September, 1942.

Notary Public in and for Clark County Nevada.

-Found Corner-  
 Mound of rocks, one rock marked with 4 niches on west and 2 on north.

Point of diversion 10' well 175' deep Velocity 43" per 100'

Pumphouse

23' x 34'

62' x 63'

2' x 200'

429' x 160' 72'

1x1' stake used by Basic Magnesium as a 1/4 corner

East edge, West bulkhead 462' x 177' 57"

LARGE WASH

Present Aggregate Pit

9 1/2' x 1 1/2' Flume 1248' long (inside mens)

Screening, Washing and Crushing Plant

Reservoir 9' x 50' x 10'

BOULDER CITY

57' x 15'E
