I, Wayne M. Lead, being first duly sworn, depose and say that this map consisting of one sheet, has been correctly drawn to the desired scale from field notes of a survey made by Frank Walker, and checked under my direction, that it truly and correctly represents the location and extent of the proposed works used to divert water from Blackrock Well in Lincoln County, by the One Eleven Bar Cattle Company for Stockwatering and domestic purposes. That the proposed point of diversion, the approximate location and size of the diverting channel or other conduit, place and manner of use, and the location and names of all other works or streams which are crossed by, or connected with the said works, are fully and correctly designated thereon.
