

T17NR23E
SCALE 1"=500'

Note—These two wells were dug by the emigrants in the early days. They are 125' apart. The tie was made to a point midway between them. It is proposed to cover one and install a pump over the other. It is approximately 27' to water. The well found to be in the best condition will be developed.

I, WAYNE McLEOD, being first duly sworn, depose and say that this map, consisting of one sheet has been correctly drawn to the designated scale from field notes of a survey made by me on September 30, 1945; that it truly and correctly represents the location of the proposed works used to divert water from an UNDERGROUND SOURCE in LYON COUNTY by R.H. CONKLIN for STOCKWATERING and DOMESTIC purposes. That the proposed point of diversion, the place and manner of use are fully and correctly designated thereon.
