I, William H. Hisle, being first duly sworn, depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale from field notes of surveys made by me on the 10th, 11th and 12th days of August, 1947; that it truly and correctly represents the location and extent of the work to be used to divert water from Tank Spring and Sand Springs Valley Wash, both in Nye County, by H. L. Titus and Madison Locke for stockwatering purposes. That the proposed point of diversion, the approximate location and size of the diverting channel, the place and manner of use, and the location and names of all other works or streams which are crossed by, or connected with the said works, are fully and correctly designated thereon.
