 County of Mineral }

I, L.B. Spencer, being first duly sworn, depose and say that this map has been correctly drawn to the designated scale from the field notes of a survey made by me on the 3rd day of February, 1948; that it truly and correctly represents the proposed location and extent of the works used to divert the water from North Well, underground source, in Mineral County, Nevada, by William Merchant for Irrigation Purposes. That the Point of Diversion, the approximate location and size of pipe line and ditch and the location of all other works are fully and correctly shown hereon.
