I, Frank Walker, being first duly sworn, depose and say that this map has been correctly drawn to the designated scale from field notes of a survey made by me, in the Month of August 1949; that it truly and correctly represents the location and extent of the works used to divert water from Underground, in Lincoln County, by M. M. Horsman, for domestic use. That the point of diversion, the approximate location and size of the diverting conduit, the location and names of all other works which will cross or connect with the proposed works, and the boundary of all lands, showing by 40-acre subdivisions the areas where said water will be used, are fully and correctly designated thereon.
