

State of Nevada  
County of Humboldt 55

I, J. G. Huntington, being first duly sworn, depose and say that this map and profile has been correctly drawn to the designated scales from field notes of a survey made by me on the ninth and tenth days of February 1952; that it truly and correctly represents the location and extent of the proposed works used to divert water from Peterson Well, in Pershing County by Black Rock Desert Mineral Company, for milling and domestic purposes. That the proposed point of diversion, the location of the mill, the approximate size of the diverting conduit, and the location and names of all other works or streams which are crossed by or connected with said works, are fully and correctly designated hereon.

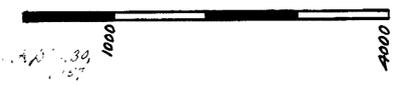

*J. G. Huntington*  
State Water Right Surveyor.

Subscribed and sworn to before me this 7th day of March 1952.

*James A. Callahan*  
Notary Public in and for Humboldt County, Nevada.

The courses were deflected from the true meridian as determined by direct solar observations.

Scale 1000 Ft. = 1 in.
