

STATE OF NEVADA }
 COUNTY OF ESERALDA } SS

I, Harry H. Hughes, being first duly sworn, depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale from field notes of a survey made by me on Oct. 11, 1952; that it truly and correctly represents the location and extent of the proposed works used to divert water from an underground source, in Nye County, by George Lippincott, for milling, smelting and domestic purposes. That the proposed point of diversion and return, the location of the smelter, the approximate size and capacity of the diverting conduit, and the location and names of all other works or streams which are crossed by or connected with said works, are fully and correctly designated thereon.

Harry H. Hughes
 State Water Right Surveyor
