 I, Frank Walker, being first duly sworn, depose and say that this map has been correctly drawn to the designated scale from field notes of a survey made by me between the 1st and 20th day of December 1952; that it truly and correctly represents the location and extent of the works used to divert water from Flood-water of Black Canyon, in Lincoln County, by H. Wendell Jones et al for stock watering purposes. That the proposed point of diversion, the approximate location and size of the storage reservoir, the place and manner of use, and the location and names of all other works or streams which are crossed by, or connected with the said works, are fully and correctly designated thereon.
