I, J. A. Millar, being first duly sworn, depose and say that this map consisting of one sheet, has been correctly drawn to the designated scale from field notes of a survey made by me on April 23, 1956; that it truly and correctly represents the location and extent of the proposed works used to divert water from an underground source, in Douglas County, Nevada, by Andrew Hofer for irrigation and domestic purposes.

That the proposed point of diversion, the place and manner of use and the location and names of all other works which are connected with said works, are fully and correctly designated thereon.
