COUNTY OF HUMBOLDT } 55

I, W.A. Wentz, being first duly sworn, depose and say that this map consisting of one sheet, has been correctly drawn to the designated scale from field notes of a survey made by me between the 17<sup>th</sup> day of April and the 20<sup>th</sup> day of April, 1956; that it truly and correctly represents the location and extent of the proposed works used to divert water from spring in (name unknown) gulch, in Pershing County, by Walter Low and Fred Miller, for mining and domestic purposes. That the proposed point of diversion and return, the location of the mine and camp site, the approximate size and capacity of the channel, and the location and names of all other works or streams which are crossed by or connected with said works, are fully and correctly designated hereon.
