 I, F. M. Eaton, being first duly sworn, depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale from field notes of several surveys made by me in this immediate vicinity relating to "small tracts" and well surveys and from September, 1953 to the present time; that it truly and correctly represents the location and extent of the works used to divert water from an underground source in Clark County, by Charles F. Wright for Quasi Municipal Purposes (Motel). That the point of diversion - an existing well - and the boundaries of all lands, showing by lots, to be served, are fully and correctly designated thereon.
