I, Walter G. Reid, being first duly sworn, depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale, from field notes of a survey made by me on October 21, 1959; that it truly and correctly represents the location and extent of the works used to divert water from Sweetwater Creek, in Lyon County, by Sweetwater Ranch Company, for power purpose. That the proposed point of diversion and return, the location of the power uses, the approximate size and capacity of the diverting channel or conduit, and the location and names of all other works or streams which are crossed by or connected with said works, are fully and correctly designated hereon.
