I, Walter G. Reid, being first duly sworn depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale from field notes of a survey made by me on February 3rd, 1960; that it truly and correctly represents the location and extent of the works formerly used to divert water from an underground source and the location and extent of the lands upon which said water was formerly applied for by A. J. West for irrigation purposes under Application No. 12267 and the location of the change of place of use of said water by A. J. West, in Mineral County for irrigation purposes under Application No. 18690. That the point of diversion, the location, size and grades of the diverting channel, location and description of all measuring devices, the location and extent of lands owned or controlled by the applicant upon which water applied for under Application No. 13690 is used, together with the area and kind of culture in each 40-acre subdivision, and the location and names of all other works or streams which are crossed by or connected with said works are fully and correctly designated thereon.
