I, M. M. Harcourt, being first duly sworn, depose and say that this map, consisting of 1 sheet, has been correctly drawn to the designated scale from field notes of a survey made under my supervision and direction between the 21st day of June, and the 24th day of July, 1961; that it truly and correctly represents the location and extent of works used to divert water from Well Number 2 in Douglas County, by The Standard Slag Company for milling purposes. That the proposed point of diversion, the location of the mill, the approximate size and capacity of the diverting conduit, and the location and names of all other works or streams which are crossed by or connected with said works, are fully and correctly shown and designated hereon.
