Water tank 18' dia. 12' high
43,000 gals.
Water tank 8' dia 16' high
22,000 gals.

STATE OF NEVADA } ss.
County of White Pine }

I, Robert W. Millard, being first duly sworn, depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale from field notes of a survey made under my supervision and direction between the 7th day of Dec 1964 and the 10th day of Dec 1964, that it truly and correctly represents the proposed location and extent of the works used to divert water from Warm Springs in White Pine County, Nevada, by Ely Municipal Water Department for mining and milling purposes. That the proposed point of diversion and return, the location of the mine and mill, the approximate size and capacity of the diverting conduit and the location and names of all other works or streams which are crossed by or connected with said works, are fully and correctly designated thereon.

[Signature]
State Water Right Surveyor

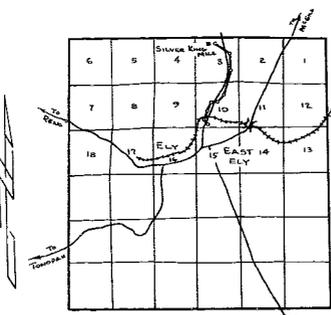

Subscribed and sworn to before me this 26th day of February 1965
