I, **Robert S. Leighton**, being first duly sworn, depose and say that this map has been correctly drawn to the designated scale from field notes of a survey made under my supervision on the 9th and 10th day of October, 1965; that it truly and correctly represents the location and extent of the proposed works used to divert water from an underground source, in Pershing County, by Wabash Mines Inc., for mining and milling purposes. That the proposed point of diversion, the location of the mill, the approximate size of the diverting conduit, and the location and names of all other works or streams which are crossed by or connected with said works, are fully and correctly designated hereon.
