STATE OF NEVADA
COUNTY OF WASHOE } SS

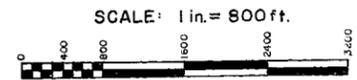

I, William H. Hiale, being first duly sworn, depose and say that this map, consisting of one sheet, has been correctly drawn to designated scale from field notes of a survey made by me between the 14th day of November and the 18th of November, 1966, that it truly and correctly represents the proposed location and extent of the works used to divert water from an Underground Source in Esmeralda County by Ralph E. Davis for milling purposes. That the proposed point of diversion and return, the location of the mill, the approximate size and capacity of the diverting conduit, and the location and names of all other works or streams which are crossed by or connected with said works, are fully and correctly designated hereon.

William H. Hiale
STATE WATER RIGHT SURVEYOR

Subscribed and sworn to before me this 28th day of November, 1966
