

It is proposed that the well be equipped with an electric submersible pump and with two 560 gallon metal troughs for stockwater.

NOTE:
Bearings determined by means of a compass.

STATE OF NEVADA }
COUNTY OF HUMBOLDT } SS.

I, John Griswold, being first duly sworn, depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale from field notes of a survey made under my supervision and direction on the 9th day of June, 1970; that it truly and correctly represents the proposed location and extent of the works used to divert water from Trout Well, in Humboldt County, by United States Department of the Interior, Bureau of Land Management for stockwatering purposes. That the proposed point of diversion, the approximate location and size of the conduit, the place and manner of use, and the location and names of all other works or streams which are crossed by, or connected with the said works, are fully and correctly designated thereon.

State Water Right Surveyor
