I, Claude E. Hunter, being first duly sworn, depose and say that this map, consisting of 1 sheet has been correctly drawn to the designated scale on an aerial photograph flown October 29, 1970 and from field notes of a survey made under my direction on September 30, 1970; that it truly and correctly represents the proposed location and extent of works used to divert water from a spring, in Elko County, by Ruby Dome Ranch for stockwatering purposes. That the proposed point of diversion, the approximate location and size of the diverting channel or other conduit, the place and manner of use, and the location and names of all other works or streams which are crossed by, or connected with the said works, are fully and correctly designated thereon.
