I, Donald C. Osborne, being first duly sworn, depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale from field notes of a survey made under my supervision and direction on the 18th day of June 1973; that it truly and correctly represents the proposed location and extent of the works used to divert water from an underground source in White Pine County by the Nevada Department of Fish and Game for fish, wildlife and recreation purposes. That proposed point of diversion, the approximate locations and sizes of the diverting channels, the location and names of all other works which will cross or connect with the proposed works are fully and correctly designated thereon.
