I, Mark Chilton, being first duly sworn, depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale from field notes of a survey made under my supervision and direction, on the 10th day of October, 1973, that it truly and correctly represents the proposed location and extent of the works used to divert water from an UNDERGROUND SOURCE in EUREKA COUNTY by HAL JENSEN & D. JENSEN, ROLAND SWANSON & E. SWANSON and HERBERT BOTWIN for QUASI-MUNICIPAL and DOMESTIC purposes, that the proposed point of diversion, the location of the residence, the approximate size and capacity of the conduit, all reservoirs or basins, the location and names of all other works which will cross or connect with the proposed works, and the boundary of all lands, showing by 40-acre subdivisions, are fully and correctly designated thereon.
