

In 1957 the tie to point of diversion under Application No. 17533 for an unnamed spring in Washoe County was made from a stone with mound erroneously assumed to be the SW corner of Section 26, T.20N., R.18E., M.D.B. & M. This map indicates the correct point of diversion as tied to the true SW corner of Section 26 as verified by survey made May 1 and 2, 1974.
