STATE OF NEVADA } ss
County of Nye

I, Wallace T. Boundy, being first duly sworn, depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale from field notes of a survey made by me, between the 20th day of March, and the 26th day of March, 1976, that it truly and correctly represents the proposed location and extent of the works used to divert water from Underground Sources, in Esmeralda County, by David L. Pruett for Mining, Milling and Domestic purposes. That the proposed point of diversion and return, the location of the mine and mill, the approximate size and capacity of the diverting channel, and the location and names of all other works or streams which are crossed by or connected with said works, are fully and correctly designated herein.

Wallace T. Boundy
State Water Right Surveyor
