

Section corner found;
Brass Cap

Well depth 205' (existing drill hole)
6" to thin wall casing to 50'
Water level at 40'
10 HP. Aeromotor submersible 3" 440 V pump
200 gpm. maximum rate
3" PVC line to place of use in SW 1/4 of Section
4; T26 S, R64 E on the Camp Bird lode claim

State of Nevada } ss.
Carson City

I, Richard V. Wyman, being first duly sworn, depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale from field notes of a survey made by me (or under my supervision) on the 21th day of June, 1977, that it truly and correctly represents the proposed location and extent of the works used to divert water from an underground source in Clark County, by Intermountain Exploration Company for mining and milling purposes. That the proposed point of diversion, the location of the mine and mill, the approximate size and capacity of the diverting conduit and the location and names of all other works or streams which are crossed by, or connected with, said works, are fully and correctly designated thereon.

Richard V. Wyman
State Water Right Surveyor

Subscribed and sworn to this 21th day of June, 1977

Shirley Anderson
COUNTY CLERK STOREY COUNTY, NEV.
