CARSON CITY)

I, LAWRENCE A. WERNER, being first duly sworn, depose and say that this map, consisting of 1 sheet has been correctly drawn to the designated scale from field notes of a survey made under my supervision and direction between the 10th day of April and the 14th day of April, 1978; that it truly represents the proposed location and extent of the works used to divert water from the Carson River, Mexican Ditch in Carson City by Carson City for municipal purposes. That the proposed point of diversion, the location and names of all other work which will cross or connect with the existing work, and the boundary of all lands, showing by 40 acre subdivisions the areas proposed to be used, are fully and correctly designated thereon.

Lawrence A. Werner
