

STATE OF IDAHO
 COUNTY OF TWIN FALLS

I, Charles D. Howard, being first duly sworn, depose and say that this map has been correctly drawn to the designated scale from field notes of a survey made under my supervision and direction, between the 19th day of December, and the 20th day of December 1979, that it truly and correctly represents the proposed location and extent of the works used to divert water from an underground source in Elko County, Nevada, by John E. Arrington

for irrigation purposes. That the proposed point of diversion, the approximate location and size of the diverting channel, all reservoirs or basins, the location and names of all other works which will cross or connect with the proposed works, and the boundary of all lands, showing by 40-acre subdivisions the areas proposed to be irrigated, are fully and correctly designated thereon.

STATE WATER RIGHT SURVEYOR #535

Subscribed and sworn to before me James H. ...
 this 4 day of Jan, 1980.
 Notary Public in and for Twin Falls County, Idaho.
