STATE OF NEVADA  
COUNTY OF WASHOE

I, William F. Pillsbury, being first duly sworn, depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale from survey field notes of the General Land Office / BLM and data from USGS 7-1/2' topographic map titled Morgan Hill, Nevada, under my supervision on the 27th day of January, 1982; that it truly and correctly represents the location and extent of the works as extracted from the improvement records of the BLM, used to divert water from an underground source in Elko County, by Bureau of Land Management for stockwatering purposes. That the proposed point of diversion, the approximate location and size of the diverting channel or other conduit, the place and manner of use, and the location and names of all other works or streams which are crossed by, or connected with the said works, are fully and correctly designated thereon, based on the above data reference.
