STATE OF NEVADA
COUNTY OF CLARK

I, Richard V. Wyman, being first duly sworn, depose and say that this map, consisting of one sheet, has been drawn to the designated scale from field notes of a survey made by me (or under my supervision and direction) between the 16th day of September and the 17th day of September, 1983; that it truly and correctly represents the proposed location and extent of the works used to divert water from an underground source in Lyon County, by Intermountain Exploration Company, for mining and milling purposes. That the proposed point of diversion and return, the location of the mill, the approximate size and capacity of the diverting conduit, and the location and names of all other works or streams which are crossed by or connected with said works are correctly shown and designated hereon.

Richard V. Wyman 11/10/83

Subscribed and sworn to before me this 25th day of May 1983.
