I, Richard W. Forman, being first duly sworn, depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale from field notes of a survey made by me on the 24th day of May, 1983; that it truly and correctly represents the proposed location and extent of the works used to divert water from Underground Sources, in White Pine County, by Mark L. Andreas for Milling and Domestic purposes. That the proposed point of diversion, the approximate location and size of the diverting channel, all reservoirs or basins, the location and names of all other works which will cross or connect with the proposed works, are fully and correctly designated thereon.
