I, Richard W. Forman, being first duly sworn, depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale from field notes of a survey made by me on the 29th day of January, 1986; that it truly and correctly represents the proposed location and extent of the works used to divert water from Robinson Springs, in White Pine County, by Bill Harris for Hydroelectric purposes. That the proposed point of diversion and return, the location of the turbine site, the approximate size and capacity of the conduit, and the location and names of all other works or streams which are crossed by or connected with said works, are fully and correctly designated thereon.
