

STATE OF NEVADA
COUNTY OF WASHOE ss

I, John M. Collins, being first duly sworn, depose and say that this map has been correctly drawn to the designated scale from various maps, records and field notes of a survey made under my direction during November 1985; that it truly and correctly represents the location and extent of the works used to divert water from an underground source in Washoe County, by Washoe County, a political subdivision of the State of Nevada, for wildlife and quasi-municipal purposes. That the proposed points of diversion, the approximate size, location and name of diverting channels, the location and names of all other works which will cross or connect with the proposed works, and the boundary of all lands, showing by 40-acre subdivisions the areas proposed to be served, are fully and correctly designated or referred to hereon.
