I, Frank Walker, being first duly sworn, depose and say that this map has been correctly drawn to the designated scale from field notes of a survey made by me completed on the 8th day of June 1933; that it truly and correctly represents the location and extent of the works used to divert water from Camp Valley Wash, in Lincoln County, by David Francis for irrigation purposes. That there are no other works or streams crossed by or connected with said works, and the boundary area and kind of culture of lands irrigated are correctly shown and designated hereon.
