

STATE OF NEVADA
 COUNTY OF CLARK

I, Joseph P. Fielding, being first duly sworn, depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale made from field notes of a survey made under my supervision and direction between the 8th day of April, and the 10th day of April, 1987; that it truly and correctly represents the proposed location and extent of the works used to divert water from an underground source in Clark County, Nevada by Jack H. Hooper, Trustee of the Hooper Family Trust dated January 12, 1973, James S. Haworth and Iris L. Haworth for industrial (cooling) purposes. That the proposed point of diversion, the approximate location and size of the diverting channel, all reservoirs or basins, the location and names of all other works which will cross or connect with the proposed works, and the boundary of all lands, showing by 40-acre subdivisions within which the water is to be beneficially used are fully and correctly designated thereon.
