I, Carl D. Peterson being first duly sworn depose and say that this map, consisting of one sheet has been correctly drawn to the designated scale from field notes of a survey made under my supervision and direction between the 14th and the 24th days of January, 1991, that it truly and correctly represents the locations, proposed and existing, of extent of works for the diversion of water from springs in Lincoln County, Nevada by Dorothea M. Rowe for quasi-municipal purposes. That the proposed points of diversion, the approximate locations and size of the diverting conduits, the place and manner of use, and the location and names of all other works or streams which are crossed by or connected with the said works are fully and correctly designated thereon.
