

T.43 N., R.32 E.
M.D.M. & B.

(UNSURVEYED)

SURVEY NOTES:

1. The found corners indicated on this survey plat were set in the Dependent Survey of 1962 conducted by Lancel E. Bland and approved by GLO. No other corners from the 1873 partial subdivision by Skinner, Garside & Preble have been recovered in the adjacent Sections and Section 11 has never been surveyed. The sixteenth lines in Section 11 are therefore platted only.
2. The geodetic position (GPS) of the proposed well is so indicated hereon within the normal five (5) meter degree of accuracy associated with the Trimble Pathfinder GPS Receivers.

I, Kenneth D. Mann, being the first duly sworn, depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale from field notes of a survey made under my supervision and direction, on the 14th day of July, 1994; that it truly and correctly represents the locations and extent of the works to divert water from an underground source in Humboldt County, by the Happy Creek Land & Cattle, LTD., Quinn River Crossing Ranch, LC, Dufurrena Sheep and the Bureau of Land Management, U.S. Department of Interior for stockwatering purposes. That the proposed point of diversion, the approximate location and size of the diverting channel or other conduit, the place and manner of use, and the location and names of all other works or streams which are crossed by, or connected with the said works, are fully and correctly designated hereon.
