

PLACE OF USE

STATE OF NEVADA SS
COUNTY OF CLARK

I, Richard V. Wyman, being first duly sworn, depose and say that this map consisting of one sheet has been correctly drawn to the desired scale from field notes of a survey made by me on the first day of March, 1995, and that it truly represents the proposed location and extent of the works used to divert water from an underground source in Clark County, Nevada, by Nevada Pacific Mining Company, for mining and milling purposes. The proposed point of diversion, the location of the mine and milling (ore treatment) area, the approximate size and capacity of the diverting conduit, and the names of all other works and streams which are crossed are fully and correctly designated thereon.
