NOTARY PUBLIC IN AND FOR THE COUNTY OF NYE. MY COMMISSION EXPIRES MAR 31, 1997.

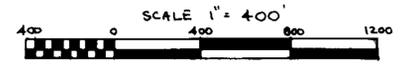

BASIS OF BEARING IS A SOLAR OBSERVATION (SEE NOTE)

Note: To find the two above corners I started at the SW Cor of the TWP. I ran a Stadia line with a transit and compass. All the corners along the Twp line were recovered, but for the SE Cor of Sec 31 which fell in a wash. The bearings and distances were remarkably close to the 1801 G.L.O. field notes and the corners were found marked as called for. The bearing of the TWP line was approx 388°30'E with the declination set at 16°30'E.

BASIS OF BEARING - The Basis of bearing is a Solar Observation by the time method from a 2" hub that is N87°26'03" E 122.97' from the Sec Corner to the 3/4" pipe set near the water source. The bearing was N52°14'23" E.

From the 3/4" cor the following bearing trees were blazed and mkt:
 84° W 30.5' 5" diam juniper described "BT X"
 55° E 30.2' 7" diam pinion mkt "1802 X"
 N63° E 30.4' 6" diam pinion mkt "1802"
