

STATE OF NEVADA
CARSON CITY

I, FRED STANIO, being first duly sworn, depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale from the field notes of a survey under my supervision and direction, between the 1st day of July and the 3rd day of July, 1996; that it truly and correctly is Quasi-municipal and represents the proposed location of the well used to divert water from an underground source in Churchill County, by the State of Nevada, acting by and through its Department of Transportation, for public highway purposes. That the proposed point of diversion, the location and size of the proposed drilled well, and the boundary of alllands, showing by 40 acre subdivisions, the areas occupied and irrigated at the Fallon Maintenance Station are fully and correctly designated thereon.

Fred Stanio
State Water Right Surveyor No. 503
