I, DAVID R. HAMLIN, being first duly sworn, depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale from field notes of a survey made by me, or under my supervision and direction, on the 8th day of May, 1998; that it truly and correctly represents the existing location of the well used to divert water from an underground source in Humboldt County, by the State of Nevada, acting by and through its Department of Transportation, for public highway purposes. That the point of diversion, the approximate location and size of existing drilled well, and the boundary of all lands, showing by 40 acre subdivisions the areas proposed to be served, are fully and correctly designated thereon.
