Map Notes

THIS MAP ACCOMPANIES APPLICATION FOR A TEMPORARY PERMIT. Deviation from the Guidelines and Rules for the Preparation of Water Right Maps (2000) includes use of color and water based ink, absence of water right surveyor affidavit, paper medium, a scale of less than one-inch-to-1000-feet for Place of Use, use of imagery instead of showing features by signs and symbols, omission of quarter-section and sixteenth-section details, and strict adherence to Basis of Bearing guidelines (which would require an actual field survey; see Basis of Bearing notes below).

Valley Trend Imagery is USGS DOQQ from 1994 flight, and 2001 and 2003 orthophotographs from Pinnacle Mapping Technologies, Inc. (<http://www.pinnaclemapping.com>).

(2002) Boundaries of hydrographic areas of the Humboldt River Region courtesy of Nevada Division of Water Resources (NDWR), Department of Conservation and Natural Resources. These are administrative boundaries rather than strictly hydrologic ones.

Basis of Bearing

The line bearing N00°12'49"E from the SW corner to the W quarter-corner of Section 19, T39N, R43E, M.D.M. is referenced to a compilation of surveyed and projected BLM GCSB data and historical survey records in the Nevada State Plane Coordinate System, NAD27, East Zone by Mark Rogge, Water Rights Surveyor 662, translated to the UTM (NAD27) Coordinate System, Zone 11N (see Map Notes above).

STATE ENGINEER'S USE

Map to Accompany Application to Change the Point of Diversion, Manner of Use, and Place of Use of a Portion Under Permit 52048

For Mining, Milling, Domestic, and Dewatering
 By Santa Fe Pacific Gold Corporation
 From Underground
 In Humboldt County, Nevada
