I, David Hill, being first duly sworn, depose and say that this map, consisting of sheets numbered from 1 to 1, inclusive, has been correctly drawn to the designated scale from field notes of surveys made by me in March 2003; that it truly and correctly represents the points of diversion of Woodward's Creek and three unnamed streams, in White Pine County, Nevada, by the U.S. Fish and Wildlife Service, Ruby Lake National Wildlife Refuge, for wildlife purposes. That the proposed points of diversion, the place and manner of use, and the location and names of all other works or streams which are crossed by, or connected with the said works, are fully and correctly designated thereon, with the exception of the entirety of Ruby Lake for the place of use, which is shown in the map accompanying water right application 59916.
