I, George G. That the survey was made under my supervision and direction on January 15, 2016, and that it correctly represents the location of the Proposed Point of Diversion and the Proposed Place of Use of water heretofore appropriated under a portion of Permit 49154, Certificate 12506 by Gary H. & Donel D. Wilcox for irrigation and domestic purposes from an underground source within Washoe County, Nevada.

NOTES

1. For the existing Point of Diversion and Place of Use refer to the map supporting Permit 49154, Certificate 12506. This application is commingled with several other certificated rights which have been abrogated. Some of these rights have been relinquished without the benefit of a stripping map. There now remains less than 0.27 of an acre of Permit 49154 that has not been abrogated or relinquished. This makes the preparation of a map to illustrate the remaining acreage to be stripped impractical. Permission has been granted allowing this application to be made without a stripping map.
