

11. Project Description

The well will provide water for cattle grazing on the Sandhill South grazing allotment (05458). This allotment consists of 1560 acres of crest wheat. 920 acres are privately owned with the remaining 640 acres being federal land. The attached map shows the private and federal land in the allotment. Section 27 is privately owned and the well will be drilled on this section in the Southeast corner. All improvements will be located on private land. The system will include the well, solar pump, storage tank and trough.

Sandhill South Allotment

Township 34 North Range 57 East
