I, Frank Walker, being first duly sworn, depose and say that this map has been correctly drawn to the designated scale from the field notes of a survey made by me between the 7th day of Sept 1930 and the 13th day of Sept. 1930; that it truly and correctly represents the proposed location and extent of the works used to divert water from Wilson Creek and its tributaries, for irrigation purposes. That the proposed point of diversion, the approximate location and size of the diverting channel, the location and names of all other works which cross or connect with the proposed works, and the boundaries of all lands, showing by 40-acre subdivisions the areas proposed to be irrigated, are fully and correctly designated thereon.
