In accordance with our telephone conversation this date, enclosed is a copy of the subject proofs plus blank proof forms.

You will please note that the blank form is not the same as the completed form. Apparently, a prior proof form was used as the template for the completed form. Also, please note that item #4 of the completed form incorrectly list the place of use as identical to the point of diversion specified in item #3. A place of use should not include a bearing angle and distance.

Which ever form you use, I recommend that under the remarks section you include the following: "Please use the map on file under RO 4316 to support the point of diversion for Dow Spring" and "Please use the map on file under RO4317 to support the point of diversion for Chokecherry Spring, as appropriate.
