

THE STATE OF NEVADA

NOTIFICATION OF PUBLIC WATER RESERVE BY
THE UNITED STATES OF AMERICA

1) Name of Agency Bureau of Land Management

Address: 5665 Morgan Mill Road of Carson City
Street and No. or P.O. Box No. City or Town
Nevada 89701

2) Source of water East Cottonwood Canyon Complex (261925DDC)
Name of natural water source

3) Water Diverted by Natural channel spring complex area

4) Location of water source SE 1/4 SE 1/4 Section 25, T.26N., R.19E., M.D.B.&M.
(partly surveyed)

Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land, it should be stated. Diversion over a channel reach must be described by course and distance to a section corner for both beginning and end of such reach.

5) Place of use SE 1/4 SE 1/4 Section 25, T.26N., R.19E., M.D.B.&M. (partly surveyed)
Describe by legal subdivision. If on unsurveyed land, it should be so stated.

6) Nature of Claimants Title to Land Public Domain Administered by Bureau of Land Management

7) Authority for PWR Executive order of April 17, 1926 (PWR 107)

8) Priority date of PWR April 17, 1926

9) Purpose Human and animal consumption including domestic, livestock and wildlife watering.

10) Type of use: 674 cattle horses sheep or bighorn, antelope, deer, and sage grouse

11) Season of use January 01 through December 31 other

12) Amount claimed: 0.03 cubic feet per second.
448.83 gal. per min. equals 1 cubic foot per second.

Wa

13) Remarks:

The amount of water claimed is that volume which will support healthy, vigorous riparian vegetation necessary to maintain the claimed surface flow for the identified purposes. This PWR is within the Summer (aka Cold Springs) Pasture of the Flanigan Allotment. 13,480 GPD or 0.02 cfs is needed for cattle use based on the total AUMs for livestock in this pasture. This is also an important source of water for human use including current and future uses such as hiking, horseback riding and camping. Use at this spring also serves wildlife species including mule deer, pronghorn antelope, bighorn and sage grouse; making it an important source of water for wildlife. Water quality is appropriate for purposes and types of uses claimed. The riparian area will serve to provide clean water for both human and animal consumption, wildlife habitat, and forage for wild and domesticated animals. The source is undeveloped. The source and place of use both fall within a BLM Herd Management Area and Priority Greater Sage Grouse Habitat. The spring location and place of use are on lands owned by the United States. Flow measurements support the amount claimed.

Projected UTM (NAD83) location of source is as follows:

261768 m E

4441065 m N

Signature of claimant
