(15) The maximum acreage irrigated in any year was 412.8 acres.

(16) The water claimed has (has not) been used for irrigation each and every year since the right was initiated.
 Strike out one not wanted

(17) The years during which no water was used for irrigation or during which the full water right was not used were none
 If water was not used, or used in reduced quantity at any time, full information as to causes and duration

of non-use should be given, appending a sheet if necessary
 (18) The claimant's water right was (was not) recorded in the office of the County Recorder of _____ County, said record being at page _____ of Book _____ of _____, and being a claim for _____ of water for the irrigation of _____

acres of land in the following legal subdivisions: _____

NOTE—Failure to record in the county in no way invalidates a water right, but if ditch or right was so recorded, supply full information under (19)

(19) The map provided by the State Engineer and attached hereto as a part of this proof is hereby accepted as correctly showing the ditch lines or irrigation works diverting or conveying the water claimed and the lands irrigated.

(20) Water from the source given and through the works described is also used for the following purposes other than irrigation:

..... stock and domestic

(21) The character of the soil is loam. The soil needs 4.2 acre-feet continuous flow, when irrigating. (Sandy, gravelly, loam) / per annum to properly irrigate the crops. A continuous flow of one cubic feet of water per second, during the irrigation season of 3 months, is needed to irrigate each 100 acres of land.

(22) Remarks:

W. F. Mendes

Subscribed and sworn to before me this 25th day of March 1921.

Jay E. Brinton
Notary Public in and for the County of White Pine
My commission expires May 22, 1924
