(20) Remarks

The original diversion dam has been washed out by storms over the years. Remnants of the dam remain at the original point of diversion. Remnants of the old wooden flume can be found along the north side of Home Station Wash. A small tunnel, approximately two feet in diameter and 50 to 75 feet long, is also on the north side of canyon, which was part of the same flume system is also still evident.

The undersigned, being first duly sworn, deposes and says that the facts relative to the appropriation of water by

Mike and Barbara Stremler are full and correct to the best of his knowledge and belief.

The claimants above have given Sam E. Monteleone the authority to act as their agent in filing this Proof.

If proof is not made by claimant, deponent should state on this line by virtue of what authority he represents the claimant.
